LOOKING GLASS & PICTURE FRAME MANUFACTORY.

FAIRBANKS & HOLLAND,

PEARSON'S MILLS,.....BANGOR.

THE public are informed that we have established a manufactory for making **LOOKING GLASS, PORTRAIT AND PICTURE FRAMES** of all sizes and varieties. We have set up suitable machinery in all the branches of the business by which much labor is saved and the price of these rich and beautiful articles is greatly reduced, so that a fine article may now take the place of coarse and ill looking ones, and at as low a price.

Large and elegant O G and bevel frames, and small bevel frames with rich mahogony veneer are manufactured in such quantities that we are prepared to answer, at short notice, all orders at

WHOLESALE,

by the hundred or thousand, at prices that cannot but be satisfactory to dealers.

☞ New frames fitted to Portraits, Looking Glasses or Pictures, or new glasses furnished and fitted to old frames.

*** Dealers supplied with frames either with or without glasses.

N. B. Orders respectfully solicited for single frames or by the dozen; and as this is a new branch of Home Manufacture to any extent, we trust the public will be ready to encourage and support the enterprise.

For the convenience of our city friends, orders for frames of any kind may be left at the Hardware store of DAVID MOSMAN on East Market Place.

Bangor, July 26, 1843—d&wtf

BUCKSPORT HIGH SCHOOL,

AND CLASSICAL INSTITUTE.

THIS School, now in operation, will continue permanently under the care of JOHN B. L. SOULE, A. B., an experienced and successful Instructor.

It will be the purpose of the Principal, and of those who may be connected with him, to maintain a school of the first rank—where, by means of a thorough and progressive course of study, a uniform and judicious discipline, and a careful vigilance over the intellectual and moral habits of the pupils, the young of both sexes may enjoy the greatest facilities for acquiring a sound, practical education.

Thorough instruction will be given to young gentlemen preparing for college, fitting them to enter the Freshmen, or advanced classes.

Terms of Tuition. For Common Studies, **$4,00;** For Higher Branches and Languages, **$5,00.**

Board may be procured on reasonable terms;—and permanent arrangements will soon be made, by which pupils from abroad will be accommodated at very favorable charges.

The Fall Term will commence September 11th, and continue eleven weeks.

MISCELLANEOUS.

She Often Prayed.

Tell me not of days of pleasure,
They have ever from me fled,
I have lost my brightest treasure,
She is sleeping with the dead.

In the soft and silent even,
When no eye but God's could see,
She would bow and pray to heaven,
And that prayer was all for me.

When does woman seem to govern,
With the most unbounded sway?
Is it not when she is hovering
Round the spot she kneels to pray?

May this strange, wild, sad impression,
Make its fast'ning on my heart,
Ever pleading intercession,
As the weary wand'rer's part.

To thy boys, dear wife, the story
Of thy worth shall oft be told,
I will teach them to adore thee—
Emblem of the purest gold.

And thy prayer, which seems now speaking,
May not yet have lost its sound,
Like an echo fast retreating,
On thy lov'd ones may rebound.

If so, 'twill be a star of glory,
Worth thy pilgrimage below,
Sound, O heaven, the wond'rous story,
Pardon, peace, forever flow? HOPE.

Triumph of American Mechanism.

The Baltimore Sun says:—"It will be remembered that about ten months since, we announced that Mr Thomas Winans, machinist, of this city, had started for Russia with a steam locomotive, built under contract with the Emperor, by his father. We now learn that a letter has just been received from him, announcing the complete success of the Baltimore locomotive over those of England, France and other countries, that were exhibited with it, and their power tested in presence of the Emperor. After the trial of the locomotives, the Emperor requested the various machinists present to put in proposals for constructing the cars and machinery for a railroad four hundred miles in length, about to be laid between St Petersburg and Moscow.—The English machinists were confident of success, when the proposals were handed in, but notwithstanding Mr Winans' proposal was higher than many of his competitors, so well pleased was the Emperor with the American sample of mechanism before him, that he gave the contract to Mr Winans. The work is to be done in the government workshops at St Petersburg, and is to consist of 152 locomotives, each with eight wheels, 5,300 burden cars, and a number of tenders, &c., to be furnished part during the present year, and to be completed by the close of the year 1848. The price to be paid for the work, according to the contract, is $4,000,000. Thomas Winans, of Baltimore, and Joseph Harrison, of Philadelphia, contracted together for the work, and it will be constructed under the firm of Winans & Harrison.

A CURE FOR ENNUI.

Concluded.

As soon as the verdict was made known, Mr Barrows flew to Mrs Hall, that together they might go and communicate the joyful tidings to Mrs. Halley. His fine face was radiant with pleasure when he entered the widow's little parlor; but his heart was too full for utterance, and he left it to Mrs Hall to tell the tale. The aged matron was far more sensibly moved by this returning tide of prosperity, than she had been by the billows of adversity that had rolled over her. She spoke not a word, but covering her face with her handkerchief, a burst of tears relieved her swelling heart.

Mrs Hall and Mr Barrows spent the evening with their respective friends, and swiftly and cheerfully the hours flew away. Again and again was the interesting scene of the day talked over, and as often did bursts of thankfulness trickle down the cheeks of Mrs Halley. Kate scarcely spoke for the evening; but gratitude and joy sparkled in her eyes—and a smile dimpled her cheeks, which were fast recovering their roundness and their bloom. When, at a rather late hour, the visitors rejoiced to depart, Mrs Halley arose, and taking a hand of each, said, with much feeling—

"I have abundant cause for thanksgiving to my Father in Heaven, for the many good things he best ws on me; but among the most precious of his temporal mercies, is the raising up to me such friends as yourselves. The blessing of the widow will ever rest upon you!"

* * * * *

One evening, about a month after the above-mentioned visit to Mrs Halley, Mr. Barrows went to make a parting call on his friend Mrs. Hall. He was on the eve of sailing for the South of Europe with a friend whose health was declining. After talking awhile about the contemplated voyage, Mrs Hall said—

"I shall miss you exceedingly, Mr Barrows, during your absence; yet, I am glad you are going. It will do you much good, doubtless, in many ways, and among other things," she added, archly, "it may help to reconcile you to a world, of which you have been so long weary!"

"Me! O, I am cured of that *folly*, or rather—as I fear I must call it—*wickedness*," said Barrows. "A great alteration has taken place in my views of life, and its uses, my dear friend. Every thing seems changed."

"How long has that been?" asked Mrs Hall.

"I believe," said Barrows, "I must date it back to the period of the walk that you took with me, when you undertook to be my physician; for although the walk did me no special good, the visit that we made to Mrs Halley *did*. Do you recollect, Mrs Hall, what she said to you at parting, on that day?"

"I do not," answered Mrs Hall.

"That is strange," said Barrows. "She said *'that you would be blest, for you were a blessing to others,'* and the remark went to the very bottom of my heart. It caused me to reflect; and I learned that the reason why I was so miserable, was, that I lived for myself alone. Even my pure morality, of which I was not a little proud, and which made me look with scorn and contempt on the fallen, was, I found, but a refined species of self-love. I avoided no indulgence because it was sinful, but because it would in the end cause me pain. The remark of Mrs Halley opened my eyes."

"I thought," said Mrs Hall, with great coolness "that a visit to Mrs Halley would cure you."

"What can you mean?" asked Barrows. "You strongly opposed my going in with you; nay—would not consent until I urged the matter!"

"That is all pretty true," said Mrs Hall; "nevertheless, I walked with you that morning with the express design of leading you to that abode of suffering. I could have taken you to a spot, compared with which Mrs Halley's little room was the abode of comfort; but I knew that *too* strong a *potion* would counteract my design.—You had been too much to *eau-de-cologne* and otter of rose, to bear the 'villainous compound' of offensive odors, that sometimes assail the senses of those who visit the poor. It requires a veteran at the trade to encounter filthiness—and *vice* perhaps—as well as poverty, and not have the stream of benevolence forced back to its fountain, by loathing and disgust. In Mrs Halley's situation, I know there was nothing that could offend your fastidious delicacy. There was everything to excite pity—nothing revolting."

"If my visit there was a part of your plan," said Barrows, "why did you urge me to go home alone?"

"Because," answered Mrs Hall, "had you suspected my design, the lesson would have lost half its efficacy. I doubted no, that could you be brought, as if by accident, to witness real trouble, to have your sympathies awakned for the afflicted, all your imaginary causes of uneasiness would vanish away. You can best judge whether or not my opinion was correct."

"O, you judged rightly," said Barrows—"and I shall ever have cause to remember your *ruse* with deep gratitude. I think I can now sympathize with you in one source of your happiness, though you refused to let me into the secret on that memorable morning. I feel that I am in some degree blest, in having been made a blessing to one family at least."

* * * * *

Mr Barrows remained for four years abroad; and during that time Mrs Hall removed from Boston to New York city. From time to time she had news from her young friend, and always such as cheered her heart. Soon after his return home she received a long letter from him, in which he expressed his regret at her change of residence, and promised himself the pleasure of visiting her ere long. He wrote her a great deal about his voyage, and his travels in Europe; and after expressing his happiness at again finding himself at home, he went on to say—

"It was with much pleasure I found Captain Halley at home on my return. You remember he was absent when I sailed for Europe—consequently, that this is the first time we have met, since the recovery of his property. He is a truly honorable, noble-minded man. The first thing he did, was to free himself completely from all pecuniary obligation. 'The debt of gratitude,' he was pleased to say, 'he must be content always to owe; but that was a pleasure rather than otherwise—particularly as the fact of finding a friend in the depth of his misfortune, had helped to reconcile him to his fellow-creatures; helped to check the seeds of misanthropy that were germinating in his heart.'"

"I called as soon as possible to see Mrs Halley. She is in fine health, and looks as young as when I left home. She participates with me in my regrets at your having left Boston. We spent a very pleasant hour in *talking you over*, and in recalling those events that made us acquainted with each other."

"But Kate Halley quite took me by surprise. I really did not know her. She is an elegant and accomplished girl; yet, the same modest, retiring, gentle Kate as formerly. I did not think she ever could be so handsome. Her person is graceful and attractive—and her face almost beautiful—especially so when her feelings are awakened. She must have a deal of sensibility, or her emotions could not produce such an effect on her countenance."

* * * * *

In something less than three months after the receipt of the letter, from which the above was extracted, a Boston paper was sent to Mrs Hall. After having read the envelop, she read on the margin of the paper "For Mrs Hall, with the grateful regards of her friends, Mr and Mrs Marcus Barrows."

"What!" exclaimed Mrs Hall.

On opening the paper, she saw among the marriages the following marked—for special observation—with red ink:

"Married, on Thursday morning last, by the Rev. Dr.———, Marcus Barrows, Esq., to Miss Kate Halley, daughter of Captain Wilson Halley, all of this city."

"That is capital!" said Mrs Hall—"capital! Strange that I should never once think of such a denouement!"

DAILY WHIG AND COURIER.

JOHN S. SAYWARD, Editor.

SATURDAY, FEBRUARY 17, 1844.

FOR PRESIDENT,

HENRY CLAY,

OF KENTUCKY.

FOR VICE PRESIDENT,

GEORGE EVANS,

OF MAINE.

SUBJECT TO THE DICISION OF THE BALTIMORE WHIG CONVENTION.

☞ SEE FIRST PAGE.

Nomination of Mayor.

There has appeared in our columns for several days a call for a meeting this evening for the purpose of nominating a candidate for Mayor.—The call was inserted at the request of a citizen and we felt bound on the first appearance of the card to express our dissent from the mode of proceeding indicated by the call.

We think the Whigs of Bangor can select in caucus a good candidate, a worthy man and one whose experience in public affairs will make him an able Mayor of the city, having reference to all the interests concerned. We speak without reference now to any particular man, but to a number that could be mentioned. The Mayor of the city should be a man of experience, of prudence, of age—a man to inspire confidence in the soundness of his judgment and the propriety of his measures—a man interested in the general welfare and having the confidence of the community.

The Whigs of Bangor can select such a candidate and we think should do it instead of attempting doubtful expedients, in responding to a call of the source of which they can only guess We understand, in connection with this subject, that the Whig City Committee will, in accordance with old usages, call a meeting of the Whigs to consider this matter, and we cannot but hope that the Whigs generally in the city, whatever may be their views with regard to licensing, will keep themselves unpledged to any course, short of the general meeting. It will be time enough to divide, if divide they must, when there is a sufficient *cause*. The friends of the meeting this evening, it appears to us, had better postpone their action until it be proved they have just cause for an independent organization.

Those in favor of encouraging Domestic Manufactures should act with the Whigs.

The people are told over and over that the protective policy of the present tariff is disastrous to the country, and that it would be vastly better to repudiate and abandon the protective system entirely. If this be true the same kind of reasoning, if it may be called reasoning, leads to the conclusion that the people of Maine should stick exclusively to raising agricultural productions, and to oppose the introduction of manufactures. This policy is in accordance with the locoloco theories, and has been acted upon in this State until the mass of the people have seen the folly of the system as a practical matter and, of course, the absurdity of the doctrine. While the mass of the people are approaching the true theory of the American system of protecting and encouraging home labor and creating a home market, it would be quite impossible to account for the new zeal of the Bangor Democrat, and many other loco journals in contending so stoutly for the principles of free trade, showing so much bitterness against the protective features of the present tariff, but for the fact that they wish the support of Mr. Calhoun and his friends to elect Mr. Van Buren, and this support they cannot have, if at all, upon any other conditions than open and avowed hostility to the principle of protection.

Now what is Mr. Van Buren, that, to secure his election to the office of the presidency of the U. S., after he has been once rejected, the true interest of the great mass of the people, industrious, wealth-producing people should be trodden in the dust, and they ground to powder by reckless foreign competition put forth at a great sacrifice in order to break them down? The election of Van Buren may secure offices and good pay to a few men in the community, who else might find it difficult to obtain their bread. But this, surely, with intelligent and really patriotic men ought not to lead them to overlook the great interest, the true prosperity, and the genuine happiness of the great mass of the people. Now the matter appears to us very plain that if the loco party in truth and sincerity desire the welfare of the *people*, they should abandon their ruinous policy give up their destructive doctrines of free trade, and opposition to manufactures, and join with the whigs in carrying out the wiser and better policy which they have so long advocated. This should be done in sincerity and with whole-heartedness, for it will not do now, since the people are moving in this direction, to appear to approve these measures, and yet hold up men as candidates for office who are opposed to the whig policy of helping the people. The best evidence of sincerity of a change of views is the support of those men known to be strongly in favor of encouraging manufactures. Then there can be no mistake—no doubt of the practical result. And besides, true republicans should go for measures and not men, or for men in reference to measures

It may be remarked, in reference to the evils complained of in the present tariff, and in offset to the lugubrious stories of the sad effect the tariff will have upon the country, that under its operation not only the revenue of the country is on the increase, but that business all over the country is improving. These facts are felt and known both by the government and the people, and put to flight all the speculations, and hypothesis that have been raised against it. The longer the tariff is continued, the more apparent will be its benefits. The sooner the matter is put at rest and the protective policy acknowledged as the correct and permanent policy of the country, the more efficient and beneficial will the policy appear. Before the country can reap the full advantage of the system, the continual agitation of the subject must cease, and the chances for removing it, be done away.

The City of Lowell and its Manufactures.

A writer in the New York Republic, a Free Trade paper, with a view, probably of prejudicing the minds of its readers against manufacturing, recently stated that a great deal of the capital invested in Lowell is owned in England, and that Mr. Boot who first engaged in making Lowell a large manufacturing town was an English capitalist. The Lowell Courier states that it is not true at all that the capital invested there is owned in England; and so far from Mr. Boot being an English capitalist, he was born and bred in Boston.

It may be proper in this place to give some statistics of Lowell for 1843, which we find in columns of the Courier. The population of that city now amounts to twenty five thousand, and the amount of the product is thus stated:

The Merrimack Company now uses 130 bales of cotton in a week, and manufactures a quarter of a million yards per week; 210,000 yards are dyed and printed per week. The capital of the Company is now $2,000,000 They employ 1250 females and 550 males. The capital of the Hamilton Company has been, increased to 1,000,000, and they have three mills and print works.

Since 1826, the Appleton, Lowell, Middlesex, Suffolk, Tremont, Lawrence, Boot and Massachusetts Companies have been started, whose united capitals amount to $7,000,000. The whole number of mills is 33, exclusive of the Merrimack and Hamilton Print Works; the number of spindles, 201,776; number of looms, 6,194; females employed, 6,295; males employed, 2,345; yards made per week, 1,425,800; bales of cotton used per week, 1,120; pounds of cotton wrought per week, 440,000; yards dyed and printed per week, 273,000; tons of coal used per year, 12,500; cords of wood used per year; 3,250; gallons of oil used per year, 67,840.—Yards of cloth made per year, 71,141,650; pounds of cotton consumed par year, 22,880,000; average wages of females, clear of board, per week, $1,75; of males, clear of board, per day, 70 cts; average amount of wages paid per month, $150,000—consumption of starch per year, 800,000 pounds; consumption of flour for starch in mills, print works and bleachery 4000 bbls. per year; consumption of charcoal, 600,000 bushels per year

The Middlesex Company manufactures 9,000 yards of Cassimeres, and 1,800 yards of Broadcloths per year, consuming 1,000,000 pounds of wool and 500,000 teasels. The Lowel Company makes 2,500 yards of Carpets, 150 Rugs and 85,000 yards of Cottons per week. The Locks and Canals Machine Shop can furnish Machinery complete for a Mill of 5000 spindles in four months; and lumber and materials are always at command, with which to build or rebuild a Mill in that time, if required. When building Mills, the Locks and Canals Company employ directly and indirectly from 1000 to 1200 hands In addition to the principal establishments which have been mentioned may be added the Lowell Water-Proofing, connected with the Middlesex Company; the extensive Powder Mills of O. M. Whipple, Esq.; the Lowell Bleachery, with a capital of $50,000; Flannel Mill; Blanket Mill; Batting Mill; Paper Mill; Card and Whip Factory; Planing Machine; Reed Machine; Foundry; Grist and Saw Mills; together employ about 500 hands and a capital of $500,000

There are in Lowell 20 churches, which are well filled every Sabbath; schools equal to any in this or any other State; a great number of charitable societies; two Banks, an Insurance Company and an Institution for Savings, besides many other things "too numerous to particularize." The workingmen and women of Lowell are as industrious and virtuous a class of people as can be found in any city; they have large amounts of money laid up in the Savings Institution, and are becoming large owners of stock in the Corporation where they work.—Temperance and a regard to health is general, and violations of law are not frequent.

New York Express.

This paper has long been a favorite, and by the ability with which it is conducted and the improvements which have been made in its mechanical department and the increase in its size it now ranks among the first papers in the Union. It is a noble and spirited advocate of sound Whig doctrines and by means of its various correspondents is enabled to furnish to its readers a large amount of matter of interest to the whole community. All these circumstances but increase our regret that so great a fault should exist with the publishers as not to give us a Daily instead of a semi-weekly exchange!

☞ Mr Willey, editor of the Liberty Standard says, he considers Odd Fellowship another form of that old blasphemous system of Free Masonry! Mr Willey probably knows nothing of either.—We have some acquaintance with one of them and have never yet been able to discover any evil in it, but on the contrary much good.

A Lodge of Odd Fellows has been constituted in this city and we learn are quite prosperous and happy.

Death of two Judges.

The Hon Esek Cowan, one of the Justices of the Supreme Court of New York, died at Albany on Sunday evening, aged 58 years.

The Baltimore papers of Monday announce the sudden death of Judge Richard M. Magruder, also on Sunday night. He was Associate Judge of the sixth judicial district of Maryland. Disease of the heart carried him off in a few minutes.

☞ The Boston papers state that Nathaniel Green the Post Master joined the Clay Club paid his entrance fee and sent on the certificate of membership to Washington. He then turned about and withdrew his name from the Club.—If this is true, although a popular officer, we hope his nomination will be rejected.

TALLAHASSEE, Jan'y 30th, 1844.

To the Editor of the Whig and Courier:

In your columns of January 9th, I discover many hints, by Mr N. G. Norcross and others, showing at a glance that your State cannot be surpassed by any in the Union, in point of general and natural advantages. Mr N. hints to the young men of Maine to stay at home, learn to work, and drink of the chrystal brooks the draughts of health and comfort. When I look at your resources and the columns of deaths in the city of Bangor, ending Jan. 1844, I would send my message to the young men of Maine, as Divise would to his brethren, "that they come not to this place of torment." I will give you a short sketch of this country, which has many advantages, but *judge ye* of *its disadvantages*. I am a native of Maine, I am well acquainted with the cold winters and hard times on the Penobscot in '38 and '39, when many were talking of better places. I came to this city in 1839, engaged in a business which I could not leave without much loss, so I have remained since that time, save three months. My business has called me much over the Territory on the Middle, East, and South Florida. More than two thirds of the country is unfit for cultivation. The poor lands may be classed as follows: Blackjack Ridges, covered with small scrub oak, so barren that one may see a Gofer or sand turtle, a quarter of a mile; neither bush, shrub, nor grass to conceal them. A larger part of the poor lands, are the pine sand barrens and palmetto flats that are covered with long grass, which serves as a Florida pasture, for herds of Cattle, Hogs, Wild Deer, Turkies, &c. Other portions are covered with everglades, cypress, ponds, swamps, rivers, and lakes; this last mentioned is only fit for Indians and Alligators, and is nearly as productive as the land speculator represented his tract of land, when asked in court, after sale, what it would produce, answered that he had been assured by good judges, that it would produce 50 bushels of Frogs to the acre, and Alligators enough to fence it. Then add to this product, musquitoes twelve months in the year, flies and knats of all kinds and any quantities, at Deadman's Bay, on the Gulf. It was stated by an officer of the army, while stationed there, that large centry fires were extinguished by the numerous swarms of the little winged tribe falling upon them.

The good lands of Florida are very rich, and covered with Oak, Hickory, Magnolia, &c. generally distinguished by Hammock, or River Swamp lands—and will produce from 400 to 600 lbs. of cotton per acre. Corn is raised plentifully, and Rice, Tobacco, &c. the labor is principally performed by Slaves, which, when cotton brings 10c. per lb. are worth $100 each, per year to the owner. The soil is easily tilled after it is once cleared and grubed. It is common to see from ten to twenty ploughs, held by men and women, in the same field. Cotton is the ruling guide with us to good or bad times.

The country is sparsely settled, with but little or no advantages of schooling for the poor or laboring class. Not more than one to three of the Florida volunteers in camps, could sign their names. I have seen a rough looking set come down the Penobscot in the Spring—but they were as far above this former class as those were above the Seminoles. The population may be divided in this country, as follows:—The Planter, Overseer, and Cracker or Stock-tender.

As your State is famous for good teams and teamsters, I must tell you how our oxen are driven in this country. I have never seen a yoke of oxen driveh without ropes on one or all of their horns, to guide them, and sometimes saddled and bridled, and ridden like horses.

The houses of the country people are principally made of small poles with open spaces which serve as windows. Through these chinks the young urchins look at a stranger, like Crocket at the *Coon*. Where the lands are good and in large tracts, it always becomes unhealthy.—This city is the most pleasant of any I have found in Florida, but there are more of its inhabitants in the burying ground, than all the living; and it has been settled but seventeen years. I notice your deaths in the city of Bangor. Our city in the summer season does not exceed, in population, 500, and in winter, 2000; and the deaths in the city do not fall short of 150 to 300 yearly. Many of the deaths are caused by the bite of the Distillery, and I am sorry to say that more than one half of the young men who locate here, die drunkards. They take very temperately of a little spirit in the water, because it is bad They spend their evenings at the billiard saloons or gaming houses, because they have no father's house; *drink* because it is *fashionable*, and the grog seller winds up their assets by administration.

Young Men of Maine, if you ever come South, bring your Temperance pledges with you, and not leave them behind or you may find a drunkard's grave. Industry and Economy are the best friends, and rarely forsake the good and virtuous, or leave them poor.

As for late news we have none; the remnant of Indians have retired from hostilities and have remained peaceable for one year, and not much fear is felt from them. The country has been settling up fast in South and East Florida, during the past year, under the armed occupation act. My sheet fails to tell their history, but many that have means or health left, are getting back to where they can get bread for their mouths and have given up finding that better place. "Man never is but always to be blessed." As for our city, she deserves some credit, without much thanks to the northern world. Every store in the city was prostrated by fire last May and from every source of philanthropy since that time, we have not received as much as this little city sent New York, by one mail, to help them rebuild some years ago; but I think some large dealers in New York, may be tired of checks upon their patience, before they get pay for their goods that were burnt up here. We have done a pretty comfortable business in our Shanty Stores since the fire and considering our poverty are fast building good fire proof buildings. From a Patron,

C. H. B.

☞ Mr Burritt editor of The Christian Citizen says, if he could have married all the women at once he should not have remained a Bachelor What a greedy man! He should remember that a part of a loaf is better than no bread, and that in one good woman he would find a fair representative of the whole.

Indians at Court.

A deputation from the Ojibbeway tribe of Indians appears to have created quite a sensation in England, and her Majesty Victory with her royal consort, has derived intense gratification from witnessing their war dance, and listening to their war-whoops, in the gallery of Windsor Castle. The Queen has made them a present of £20, and has issued an order for the manufacture of a quantity of "Queen's Scotch Plaid," to be made into dresses for these children of the forest. These gracious favors, it is said, have quite won the affections of the Indians, and inspired them with the most lively feelings of loyalty and gratitude to their "great mother."

Narrow Escape—A Warning.

On Wednesday night last Mr B. F. Chandler of this town wrapped a large cotton comforter around him and laid down on the sofa to read.—He fell asleep and on awakening found himself completely enveloped in flames. By uncommon presence of mind he put the fire out alone, but not until after the comforter was nearly destroyed, a light-stand, chair, and the sofa badly burned, and the pillow under his head half consumed. In the same room was his wife and three children asleep, and in five minutes time, so dense and suffocating was the smoke, all must have perished. [Kennebec Journal.

CONGRESS.

WASHINGTON, Monday Feb. 12.

In the Senate to-day, Mr. Fairfield presented resolutions (now passed the third time) of the Legislature of Me. calling on Congress no longer to delay action in indemnification for French spoilations.

Mr. F. argued their propriety, stating that since 1801 of eighteen reports made in Congress two only had been unfavorable; that although old, the claims were none the less just, and that in many cases they were greatly needed; that they had accrued between 1793 and 1800, American vessels with their cargoes worth $15,000,000, having been seized by the French, &c.

Messages were received from the President transmitting the report of Capt. Stockton relative to the 'Princeton'; and the resolutions of the Legislature of Iowa asking for admission into the Union.

Mr Huntington continued the debate on the Tariff in reply to Mr Woodbury and in matter-of-fact and effective defence of the present law. Without concluding he gave way and the Senate adj.

In the House, Gen Clinch of Ga. was qualified and took his seat.

The question of privilege again occupied the day.

Legislature of Maine.

AUGUSTA, Thursday, Feb. 15.

In Senate. Ordered, That Messrs Sawtelle, French and Millett be a committee, with such as the House may join, to ascertain of the several Committees at what time they may be able to make their several reports, and also to report when the Legislature may have a recess.

In the House. Bill to incorporate the Pepperill Manufacturing Co., passed to be engrossed after a protracted discussion.

Mr Dorman of Sanford, by leave, laid on the table a "Bill to promote speedy and economical justice."

Several bills and resolves were finally passed, and passed to be enacted.

CAUCUS.

THE Legal Voters of Bangor who are opposed to granting licenses for the sale of intoxicating liquors, are respectfully invited to meet at the CITY HALL on SATURDAY the 17th inst. at 7 o'clock, P. M. for the purpose of selecting a candidate for office of MAYOR the ensuing year. Per request of several citizens. feb. 13.

MARRIED,

MARINE RAILWAY AT ST. THOMAS.

A COMPANY was formed three years since in the Danish Island of St. Thomas, for the purpose of building a Marine Railway, capable of taking up vessels of 1000 tons burden. Engineers were sent out from England, as well as all the machinery for its construction. The Railway is now completed, and the Directors having spared no expense in building it in the most substantial and perfect manner. competent persons, after very careful examination, and witnessing the practical operation of its powers, have pronounced it a finished piece of workmanship, equal in every respect to any Marine Railway in Europe or the United States. The harbor of St. Thomas is safe, commodious, and easy of entrance to vessels of the largest capacity; and all the necessary materials, of the best description, for repairing vessels, are constantly for sale at reasonable prices. The mechanics are as skillful as can be found elsewhere, and the expenses of repairing are more moderate than at any other port in the West Indies.

Masters of vessels sustaining injury at sea, and under the necessity of proceeding to a southern port for repairs, are invited to consider the many advantages enjoyed by St. Thomas, not only as it respects the despatch and facility with which their repairs can be completed, but for the certainty of finding there every thing requisite and necessary to complete them, and at prices varying but little from what would be charged in the principles cities of this country. Old Newspapers for sale at this office.

the Honorable Senate and House of Representatives in Legislature assembled of the State of Maine.

YOUR petitioners deeming the toll allowed the Penobscot Boom Corporation too high, respectfully ask for a reduction.

Your petitioners would represent that at the time a charter was granted the Lumber business upon never compared with the present, was in its infancy and all the expenses attending the erection ary and all the expenses attending the erection n Booms and Rafting Logs far greater than at sent.

That while every other expense relating to the ber business has been greatly reduced, the toll the Penobscot Boom Corporation remains the e, while by the charter a reduction was contemplated in 1842, and if it were not for the pressure at two thirds the toll now required.

Your petitioners further represent that the prize and scattering marks which have heretofore appropriated for the benefit of the Penobscot Corporation are of large amount, and its revenue should be directed to its rightful course.

Your petitioners would also add that the proprietor of said Boom has been in the practice of hiring and monopolizing the shores of Pea Cove, and the Islands near the Booms and charging to the owners of timber an exhorbitant price for hitching Logs and Piers.

Your petitioners therefore pray that the interests of the undersigned and others interested in Lumbering on the Penobscot river may be justly protected by such laws and restrictions as in wisdom may be need enact and as in duty bound will ever pray.

Signed, JONATHAN EDDY, and 134 others.

Bangor, Jan. 19, 1844.

STATE OF MAINE.

IN SENATE Jan. 27, 1844.

On the Petition aforesaid,

Ordered, That the Petitioners cause an attested copy of their Petition with this order thereon to be published in the Bangor Democrat, and Bangor Mercury, two weeks successively, the last publication to be on or before the twentieth day of February next, and also a copy of the same to be served on the Agent of said Corporation fifteen days at least, before the twentieth day of February next, that all persons interested may then appear and shew cause, if any they have) why the prayer of said Petition should not be granted.

Sent down for concurrence.

JERE HASKELL, Secretary.

IN HOUSE OF REPRESENTATIVES, Jan. 29, 1844

DOCT. DAVENPORT'S,

GENUINE BILIOUS PILLS,

FOR PURIFYING THE BLOOD.

THESE Pills will generally remove all pains and humors from the head, Stomach and Bowels and if persevered in, will entirely remove all humors from the system, and render it healthy and vigorous, by dissolving and discharging the morbid matter—and in this way, helping digestion and restoring a lost appetite. Likewise, they are a sure relief for Costive Habits. The value of these Pills are fully tested by numerous certificates from eminent Physicians, and others.—Price 25 cents.

IMPROVED

Artificial Legs and Hands.

THE subscriber formerly of West Brookfield, has removed to Worcester, where he continues to manufacture

ARTIFICIAL LIMBS,

upon the most approved modern principles. He has the advantage of more than 20 years experience in the business during which time he has made several hundred Limbs for the unfortunate.—Ladies as well as Gentlemen—from nearly every State in the Union, to whom he would refer for testimonials as to his ability to furnish a good article. Having procured at considerable expense all the recent improvements in the manufacture of Artificial Limbs, in England as well as in this country, (including the celebrated *Anglesea Leg*,) he is enabled to warrant his work *equal, in every respect* to the best that can be obtained, while his terms are much more reasonable than those of any other manufacturer.

Any person wishing to obtain *the best Limb that can be made*, or any information on the subject, will please address (POSTAGE PAID,)

UNITED STATES HOTEL, PORTLAND.

THE Subscriber, who has kept the Merchants' Exchange in Bangor, for the last 5 years, takes pleasure in informing his friends and former customers, and the public generally, that he has taken a lease of the U. S. Hotel, in Portland, and is sparing no pains or expense in fitting it up and furnishing it, in a style that will, for comfort, convenience and neatness, equal if not surpass that of any Hotel in the country. He is now ready to accommodate in a satisfactory manner, all who may call upon him, and will continue to add in furniture and other important requisites of ornament and use, until the establishment is completely renovated.

He has every thing *now* that the traveler can ask in the way of *beds* and *bedding*, *food* and *fuel*; yet he intends to do more, and before the spring opens, his arrangements to make a public house what *it should be*, will be completed.

Fires are kept through the night and proper attendants always at hand to wait upon travelers.—Meals may be had at any hour of the night or day. This arrangement is admirably adapted to the comfort of passengers arriving in the eastern stages during the night. They may depend on finding every thing suited to their wants, "at any time of night."

☞ **Carriages** always in attendance, to convey passengers to and from the Depot.

***The public are invited to give him a call and try his fare. ABIJAH JONES.

Portland, Feb. 3, 1844. w4w 6.

TEMPERANCE HOUSE.

THE subscriber, former proprietor of the Dixmont Hotel, having recently opened a house a short distance east of the former stand, respectfully requests the patronage of the public, assuring them that no efforts will be wanting on his part to give entire satisfaction.

WILLIAM UPTON.

January 31, 1844. 3t*

NEW PRINCIPLES OF PURGATION

CORNARO'S

Purifying and Preserving PILLS.

THE American public has for a long time been the victim of a false and dangerous system of medicine founded on the practice of LONG CONTINUED AND UNRELIEVED PURGATION. The evils of this old system are of the most widespread and alarming character. They have reached through every vein and artery of our nation.—In every city, and village, and hamlet—in every State and Territory of our vast Republic, will be found those who have suffered, or who are still suffering from the injurious effects of this old system, of whose practical utility the disease, decay, and utter prostration of those who test it furnish the most condemning proofs!

COMMON DRASTIC PURGATION

Scours out the system by the most improper and violent means, and then leave it, weak, low, feeble debilitated, to regain its strength as best it may.—Sometimes the consequences of this old Purgative practice are worse than mere Debility. Inflammation of the Bowels, Slow Fever, Bloody Piles, and other horrible disorders are produced, simply from the want of some enlivening and preserving power in the medicine employed. Sometimes the digestive organs are deeply and permanently injured by this coarse and unphilosophical practice, leaving the patient AN INVALID FOR LIFE.

The alarming evils and absurdities of the old system of Purgation, have led to the introduction of a new Life-giving Medicine, called CORNARO'S PURIFYING AND PRESERVING PILLS, which are established on this new and only true principle of Purgation, viz:

NO PURGATION WITHOUT IMMEDIATE RESTORATION.

The use of this admirable Purgative remedy strikes a death blow to that abominable system, which by continually evacuating the bowels without any conservative or saving power, so dreadfully and fearfully prostrates and injures the unhappy patient. These Purifying and Preserving Pills are believed to constitute the perfection of medicine, being a UNIVERSAL VEGETABLE PURGATIVE, containing two great remedies combined, viz: One remedy to PURIFY FROM CORRUPTION, and another to PRESERVE FROM INJURY AND DECAY.

And for the purpose of attaining the highest degree of purity in the preparation of these Pills, Dr Bradlee has, at a vast expenditure of time and money, invented and patented at Washington, a chemical and philosophical apparatus for distilling and refining vegetable extracts, called

THE SEVEN-FOLD FURNACE,

A powerful and novel machine—having Seven Fires and Seven Alembics, with distilling, condensing, and evaporating fixtures of a new and ingenious contrivance, capable of obtaining more than seven times the ordinary purity of any vegetable extract heretofore used in compounding medicine. The Balsamic and Preserving power of these Pills is also, by this invention, highly purified and refined, and so mingled with the operative medicine, that it repairs all the injuries created by Purgation as soon as they are caused, and strongly fortifies the system against future corruption and decay.

Let the public be no longer deceived by the advertisements of the "one remedy" doctors, who show their entire ignorance of the organic laws of the human system by supposing that a medicine which purges merely, without renovating or preserving, can be a perfect remedy. For it is a fixed and immutable law of our being that there should be, in no case, Purgation without immediate Restoration; and hence it follows, and is proved to demonstration, that all Purgatives which DO NOT possess a saving and preserving power, are injurious and injurious only—and possess NOT ONE REDEEMING QUALITY.

The whole theory of common drastic Purgation is based upon unnatural and absurd laws and they who follow it fall victims to their own folly, and too late repent their temerity.

☞ BEWARE OF UNRELIEVED PURGATION! Purge and Preserve, or do not attempt to Purge at all.

☞ The celebrated PURIFYING AND PRESERVING PILLS, purify the body from corruption and preserve it from injury and decay by a single operation. They are a Universal Vegetable Purgative, of sovereign use in all diseases of the human system in which purgation is required, particularly in Jaundice, Indigestion, Dyspepsia, Eruptions of the Skin, Scrofula, Piles, Costiveness, Bilious Disorders, Liver Complaint, Fevers, Nervous Disorders, Inward Weakness, Cholic, Dysentary, Worms, Gout, Rheumatism, Female Complaints, Depression of Spirits, Debility of System, Fits, &c., &c.

☞ Price 25 cents per Box, with full directions. Essay on Health and Long Life &c.

Sold, wholesale and retail, by the sole proprietor, D. F. BRADLEE, 79 Court Street, corner of Bratle street, Boston.

PRICE REDUCED.

DR. TAYLOR'S Balsam of Liverwort, from 375 Bowery, New York—for the cure of Coughs, Colds, Catarrhs, Asthma, Soreness of the Chest, Pain in the side and Breast, raising of Blood, Liver complaint, Bronchitis, and all those affections of Throat and Lungs which are a source of so much suffering and unarrested, so often terminate in Consumption—this remedy is highly and justly distinguished. It is purely vegetable, mild and gentle in its effects upon the system, and can be taken in the most delicate cases, with safety as well as utility. Physicians, aware of its medicinal properties, and witnessing its effects even in extreme and in some instances apparently almost hopeless cases, often prescribe it in their practice, both as a palliative and a remedy, and with the Medical Faculty generally it has met with great approbation.

CONSUMPTION.—The following remarks were taken from the last number of the Medical Magazine:

"The surprising effect produced by the genuine Dr. Taylor's Balsam of Liverwort, made at 375 Bowery, in consumptive cases, cannot fail exciting a deep and thrilling interest throughout the world. We have so long considered this disease (consumption) incurable, that it is difficult to credit our senses when we see persons, evidently consumptive, restored to health. Yet it is a fact of daily occurrence."

Certificates from the highest and most respectable sources, or persons who have been either greatly relieved by it, or entirely recovered from affections of the Lungs and Liver, could be furnished in abundance, but we insert only the following

CERTIFICATE.

Liver Complaint and General Dibility. I was given up by two physicians, and told to prepare for death. I was so weak I could not raise my hand to my head. I was in this low state, when a friend sent me a bottle of Dr. Taylor's Balsam of Liverwort, from 375 Bowery, and before I had used up the bottle, I was able to sit up in bed. By the further use I have completely regained my health.

GEO. WELLS, 23 John-st.

For a common cold and cough, this is one of the very best remedies ever discovered.

N. B. There is a spurious and counterfeit article afloat; therefore be careful to get the genuine, which is from 375 Bowery, N. Y., and is for sale by

G. W. LADD, Agent, Bangor.

an. 5. 6md&w

REDUCTION FOURFOLD IN PRICES—OR NOTHING.

AN article that every family must consider indispensable, when they know its power and value and which has heretofore been sold too high to bring it to all classes, has now been reduced fourfold in price, with a view that rich and poor, high and low, and in fact every human being may enjoy its comforts; and all who get it shall have the price returned to them if they are not delighted with its use. We assert, without the possibility of contradiction, that all burns and scalds, every external sore, old or fresh, and all external pains and aches, no matter where, shall be reduced to comfort by it in five minutes—saving life, limb or scar. No burn can be fatal if this is applied, unless the vitals are destroyed by the accident. It is truly magical, to appearance, in its effects. Enquire for "Connel's Magical Pain Extractor," at Comstock & Co's., 21 Cortland street. Price 25 cents, or four times as much for 50 cents, and ten times as much for $1.

For sale by G. W. LADD, and A. P. GUILD.

REMOVAL.

J. W. LAWREY, has removed his Oyster and Refreshment Establishment to the New Store adjoining W. T. Pearson's, opposite Mercantile Square.

Grateful for past favors, he would inform his old customers and the public in general, that he has made extensive arrangements in New York and Boston, for a constant supply of first rate, fresh Oysters; which he would be happy to furnish Wholesale and Retail, at prices to suit the times.

His Table will be constantly supplied (as usual,) with a good variety of Refreshments.

Bangor, Oct. 6, 1843. tf

THE PILES AND ALL SORES.

HAY'S LINIMENT is known now to thousands, as a most extraordinary remedy for these afflictions. It is impossible to tell in a newspaper, in such a manner, as to obtain full credence, the effects and benefits of this article, so general is the practice of advertisers of extolling articles of no merit. Such personal reference will be given, as to bring conviction to the minds of the most unbelieving. Will sufferers only ask among their friends, if they have not heard or known its effects; and if they do not hear it more warmly praised than any other salve, let them not get it.—All fancy or exageration is positively excluded from the statements, and it is determined to say nothing of its merits, but what could be fully proved by a host of witnesses, in any court of justice. Will you look at the thing and the proofs where it may be had? at G. W. LADD'S, A. P. GUILD'S, and A. YOUNG, Jr. & CO., formerly Holden's. 3twd and w6m nov 21

dec. 19.

CHINA ACADEMY.

THE Spring Term will commence the first MONDAY in March.

The Trustees of this institution would announce to the public that they have recently taken measures to add much to the advantages it has hitherto possessed. The buildings are undergoing thorough repairs, and will be rendered much more pleasant and convenient than heretofore.

Arrangements have also been made to divide the instruction given, between two competent and experienced teachers. They are convinced that in the multiplicity of branches usually taught in Academies, it is impossible for any one instructor to do justice to all of them. That every pupil should receive a proper amount of attention, there should be a division of labor.

Mr. PAINE, therefore, the present Preceptor, whose success in the business of teaching for many years, is well known, will continue to devote the whole of his time to the interests of the school; and Mr. JAMES HANSON, A. B., will be associated with him. Mr. H. took a highly honorable rank in college, is well versed in the Ancient and Modern Languages; and possesses that love for teaching, and that peculiar tack for conveying knowledge, without which the most learned instructor may labor in vain.

No pains will be spared on the part of the teachers to give entire satisfaction to every student.—Special effort will be made to render the instruction systematic and thorough.

Young men, intending to enter college, or prepare for teaching, will have particular attention bestowed upon them.

Familiar lectures will be given to illustrate the more important and difficult branches of study; and to exhibit and enforce the principles of morality.

Board may be obtained in good families from $1,25 to $1,50 per week.

Tuition per quarter in Common English Branches, $3,00

Tuition High English Branches, 4,00

" Ancient and Modern Languages. 4,50

WRIGHT'S Indian Vegetable Pills.

The True Character of Counterfeiters and Sellers of Counterfeit Medicines.

NO Medicine has been introduced to the American Public, whose virtues have been more cheerfully and universally acknowledged by its vast popularity, and extensive circulation, than *"WRIGHT'S INDIAN VEGETABLE PILLS."*

To descant upon their various virtues at this late season would be a work of supererogation, since few who peruse this article will be found unacquainted with the widely circulated proofs of the real excellence of the Medicine, to which many will be ready to add the testimonials of their own experience. But if further proof were needed of the value of the remedy it might be found in the fact that no Medicine in the market has been so shamelessly and repeatedly counterfeited. Ignorant, envious, avaricious, and unprincipled men, have in different places, manufactured a spurious pill, bearing a superficial resemblance to the true article, but composed either of impotent or deleterious ingredients, which they have sought to foist upon the public as the veritable

Indian Vegetable Pills.

These fraudulent Swindlers could never pass off their vile wares upon the public but for the connivance and assistance of self-styled respectable Druggists, who, for the sake of a little "filthy lucre," lend themselves to the monstrous and unhallowed system of imposition. The counterfeiter of a popular medicine is more criminal than a counterfeiter of current money. The injuries done by the latter sink to nothing in comparison with those inflicted upon society by the former. We might paint him wringing the mite from the hard hand of invalid penury which is extended for the boon of health, and receives instead the vile drug that protracts and aggravates disease, or to view it in its best aspect, suffers it to rage unchecked. How melancholy is the reflection that thousands may have been hurried to the grave by having a counterfeit substituted for the true Medicine; who but for the venal fraud might now be living in high health, the delight and hope of the social circle.—All classes are interested in putting down these vile Counterfeiters.

Let the Stores where they are sold be marked and Shunned.

Let the virtuous indignation of the community administer to all concerned in these unfair practices a general and withering rebuke.

CAUTION:

The public will please observe that the genuine Medicine has the following wording on the sides of the boxes,

"WRIGHT'S INDIAN VEGETABLE PILLS."

—Indian Purgative—

OF THE NORTH AMERICAN COLLEGE OF HEALTH.

And also, around the border of a label will be found in small type, "Entered according to Act of Congress in the year **1840,** by William Wright, in the Clerk's Office of the District Court of the Eastern District of Pennsylvania."

It will be further observed that the printed direction for using the Medicine, which accompanies each box, are also entered according to Act of Congress; and the same form will be found at the bottom of the first page.

The slightest attention to the above few particulars will serve to protect the purchaser from fraud, and save the lives of those who may otherwise be endangered by using a Counterfeit Medicine.

The public will also remember, that all those who sell the genuine Indian Vegetable Pills are provided with a certificate of Agency, signed by

WILLIAM WRIGHT, *Vice President Of the American College of Health*;

and that Pedlars are never in any case allowed to sell the genuine article. All traveling Agents will be provided with a certificate of Agency as above described; and those who cannot show one will be known as base imposters.

The regularly appointed Agents can receive their supplies of the above popular pills, as heretofore, from the only Office and General Depot for the New England States

198 Tremont Street 198

BOSTON.

The following highly respectable persons have been appointed Agents for the sale of the above invaluable Medicine.

TO THE OLD AND YOUNG.

HO! YE RED HEADS AND GREY!

PHENOMENON IN CHEMISTRY.

EAST INDIA HAIR DYE.

Colors the Hair, and will not the Skin

THIS Dye is in form of a powder, which in plain matter of fact may be applied to the hair over night, the first night turning the lightest RED or GREY HAIR to a dark brown, and by repeating a second or third night to a bright jet black. Any person may, therefore, with the least possible trouble, keep his hair any dark shade or perfect black; with a positive assurance that the powder, if applied to the skin, will not color it. By an occasional application, a person turning grey will never be known to have a grey hair. Directions complete with the article. There is no *coloring* in this statement, as one can easily test.

These facts are warranted by the gentleman who manufactures it, who is the celebrated Chemist, DR. COMSTOCK, author of Comstock's Chemistry, Philosophy, and other works, and School Books, well known and widely celebrated by the public.

For sale by G. W. LADD, A. P. GUILD, and A. YOUNG, Jr. & Co. formerly Holden's.

DEAFNESS.

DR. McNAIR'S ACOUSTIC OIL.

THOSE DEAF FROM INFANCY often receive in a most miraculous manner their hearing when they least expect it by some trifling accident or event, which shows them how easily they might have much sooner had their hearing, and saved themselves and their friends the pain of conversing in a loud tone, without pleasure, or of being neglected and shunned to avoid that distress which is felt mutually by the deaf person and his hearers. How sacred a duty, therefore, it is that we use all necessary means to remove such an affliction, and enjoy the social qualities implanted in our nature? This EAR OIL has the effect so to relieve the tension, and bring into use the natural action of the parts, as to restore the hearing when lost or impaired For sale by G. W. LADD.

SANDS' SARSAPARILLA

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM,

NAMELY:

Scrofula, or King's Evil, rheumatism, obstinate cutaneous eruptions, pimples, or pustules on the face, blotches, biles, chronic sore eyes, ring worm or tetter, scald head, enlargements and pain of the bones and joints, ulcerous sores, syphilitic symptoms, sciatica, or lumbago, and diseases arising from an injudicious use of mercury, ascites, or dropsy, exposure or imprudence in life. All chronic constitutional disorders will be removed by this preparation.

The proprietors submit to the public the following certificate, from a highly respectable source, a cure made by using their preparation of Sarsaparilla, which cannot but have the effect of placing beyond all doubt the curative powers of the medicine.

NEW YORK, August 3, 1843.

"Messrs. Sands—Gentlemen: Under a feeling sense of gratitude inherent to us all when suddenly relieved from suffering and disease, I now, as an act of justice due to you, and with a view of relieving the afflicted, make known to the world the inestimable benefit I have received from the use of your Sarsaparilla. In the year 1832 I sailed from England in a vessel bound for Quebec, and while on the passage first discovered the disease which afterwards proved to be a sore affliction; and truly I can say 'from the crown of my head to the sole of my foot there was no soundness in me.' From the time I first mentioned down until the present, a period of more than ten years, I have suffered all that human nature was capable of bearing. I have been under the care of the most distinguished physicians both in this country and in England, visited Bath, Cheltenham, Bristol and Gloucester, tried various specifics, among others a large quantity of Swaim's Panacea, used sulphur baths, &c. As a last resort I was induced to wrap myself in a tar ointment, keep myself secluded, shunned by all, myself also shunning. I was induced to believe my case a hopeless one.

In August last, by the advice of friends, I went to the New York City Hospital, but was there told that my case was incurable. The disease now developed my whole body, rendering me almost helpless; the skin thickened and cracked, and blood and matter ran, and life itself became almost a burden. A few weeks since I was induced to use your Sarsaparilla by hearing it so highly recommended, having spent nearly $3,000 without obtaining but little relief. After using it a short time, I found myself better, and now, by using six or eight bottles, feeling me less than ten dollars, I am well. Yes, I certify and declare to the world, that after spending near $3,000 in traveling and doctoring, and suffering more than can be told, I was perfectly cured by using your invaluable preparation of Sarsaparila; and I now recommend it to all similarly afflicted. Those wishing to know further particulars will find me at my residence, No. 27 Warren street, New York, where I shall be happy to communicate every thing in relation to the above cure.

PAUL BURDOCK.

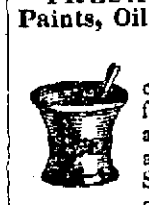

Prepared and sold by A. B. SANDS & Co. Druggists and Chemists, Granite Buildings, 273 Broadway, corner of Chambers street, New York. And for sale by Druggists throughout the United States. Price $1 per bottle, six bottles for $5.

The public are respectfully requested to remember that it is Sands's Sarsaparilla that has and constantly achieving such remarkable cures of the most difficult class of diseases to which the human frame is subject, and ask for Sands's Sarsaparilla and take no other.

G. W. LADD, Agent for this vicinity, and dealers will be supplied very low by the dozen.

Dec—13.

PAGE'S VEGETABLE SYRUP

FOR FEMALES, ENCEINTE.

THE following gentlemen are the authorized Agents for selling the above mentioned valuable medicine,—a medicine worthy the confidence of the public, and should be used by every female about to become a mother. It is invaluable in relieving the pains of Lying-in women, as has been proved by hundreds of ladies who have used it, and by many physicians who prescribe it in their practice. There is nothing deleterious in its composition, and the most delicate female in any condition may take it with perfect safety. The price of it in new in all cases where used is more than saved by the mother getting up, and recovering her strength so as to be able to dismiss her nurse one to two weeks sooner than in ordinary cases. All persons wishing for further information respecting it, are referred to a pamphlet of a dozen or more pages accompanying the medicine (which may be had gratis of any agent) containing some general remarks upon the subject proper and important to be read by all females, and several letters from physicians who have prescribed it, and from other gentlemen whose wives have used it.
